PREFACE

Handwriting is unique to every individual. The formation of letters, the dashing of 't's and dotting of 'i' s, the curves that connect each letter, to form words is believed to indicate one's personality.

If handwriting can denote the kind of person one is, all of us would like to have the best version of it, so that we reveal our best selves, when we express facts, our thoughts, and our emotions. Pre-Primary teachers hold a special place in our formation of letters, because it is they who introduce us to the world of writing. Our series of Books of Cursive Writing has been carefully curated by trained experienced kindergarten teachers, who have touched the minds of little learners for years.

The words, sentences and paragraphs that are presented have been carefully selected, and graded for different age groups.

Children would find writing in this book enjoyable because, it also helps them acquire new concepts, understand facts, get awestruck about nature and also develop the feeling of patriotism.

We are sure that writing a page of this every day, apart from improving their handwriting would also build their general knowledge, develop a curiosity to learn and explore the world around.

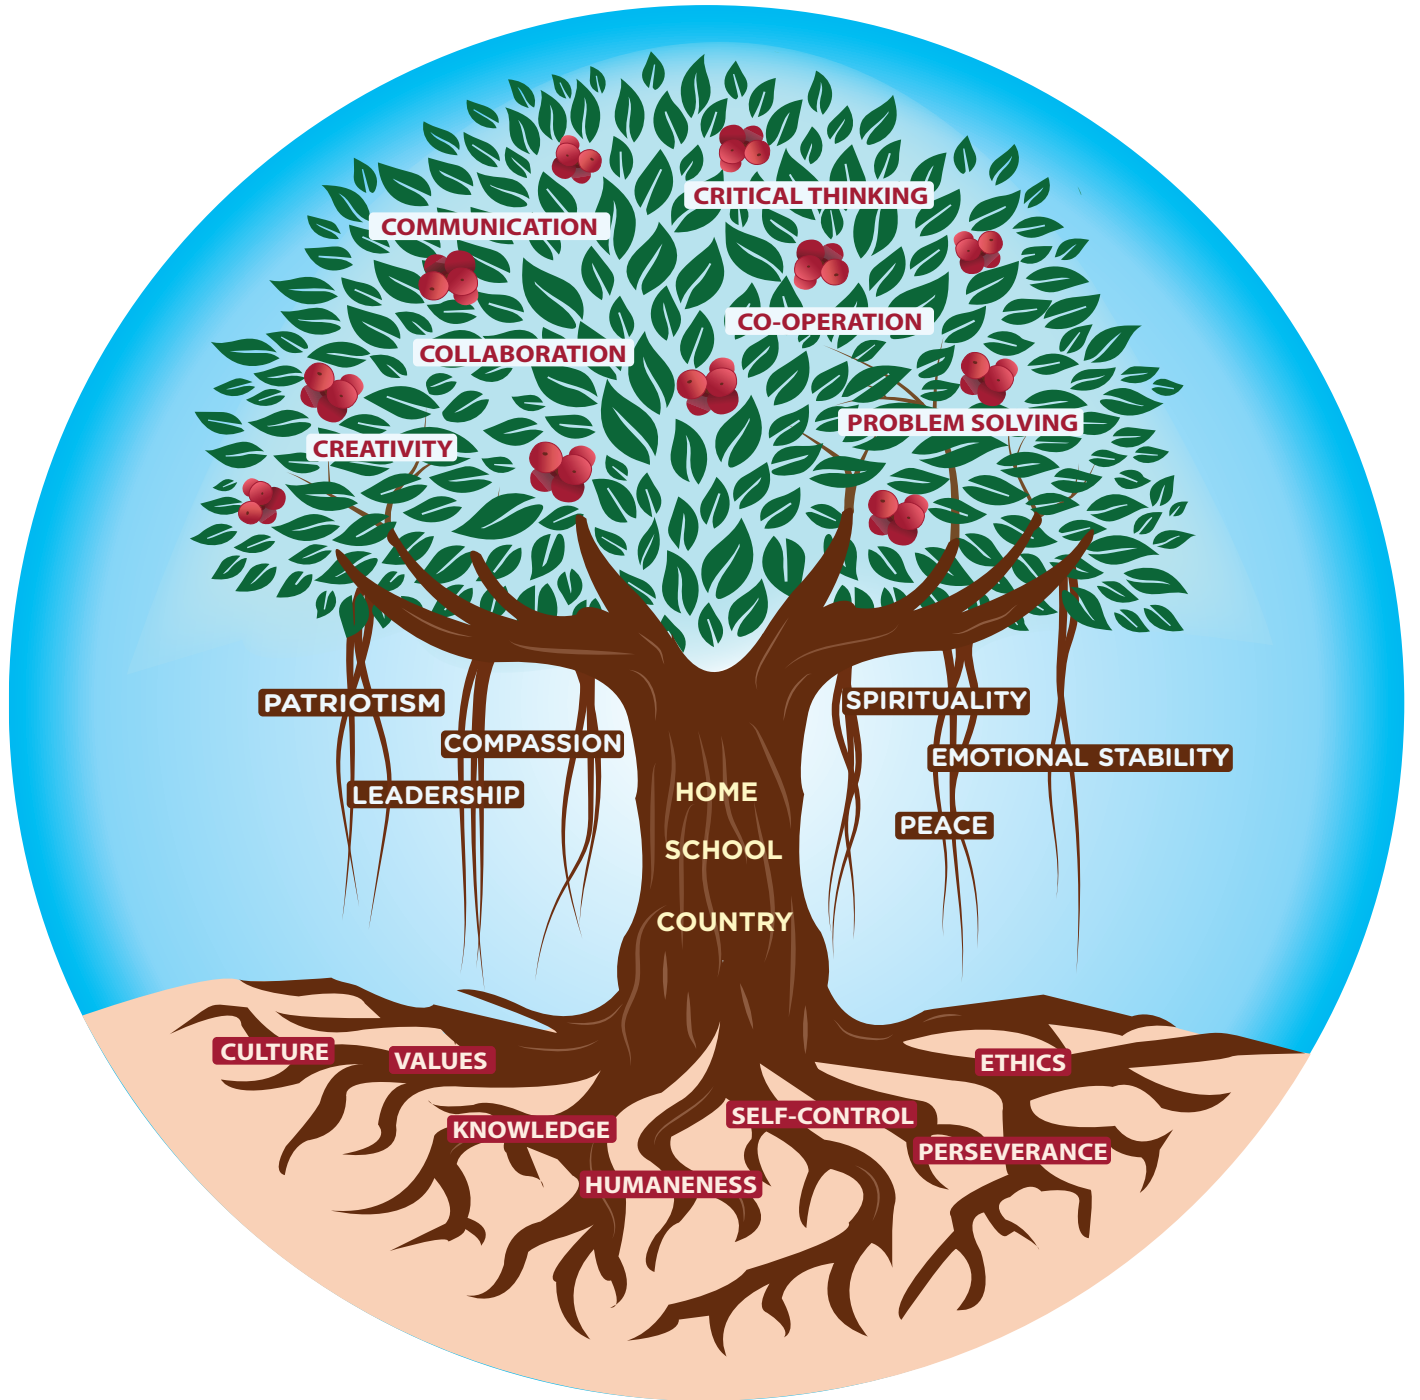

There is no copyright on the content of this book. One can seek permission and print all or only certain parts of the book. However, no unauthorized modification is permitted in any chapter. Considering the social orientation of the organization, we have consciously kept the cost affordable without compromising on quality of paper and print. Also, the e-copy of the entire book will be downloadable for free from our website, davchennai.org/publications/

This is the first edition of the book and could have areas for improvement. We request the reader to bring to our notice any feedback for correction and improvement in subsequent editions at publications@davchennai.org We will remain grateful to you for your support and feedback. Lastly before signing off, we would like to express our profound gratitude to Almighty for the guidance and encouragement in this endeavour.
